- ☐ Add to Museomics email distribution list
- ☐ Label hanger for lab coats
- ☐ Get lab notebook access
- ☐ Sign up for monthly deep clean
- ☐ Sign agreement with phone number and unique initials
- ☐ Complete [safety trainings](#) on introduction, chemicals and accidents, and be aware of [safety manual](#)

Museomics lab user agreement

As a user of the Museomics lab I agree to the following:

- I will **report any issues** or accidents in the lab to the lab manager or my PI
 - Rebecca Clement 05.2.028
Phone: +45 93565938
Email: rc@snm.ku.dk
- I agree to pay a **lab user fee of 900dkk** each month I use the lab and additional fees for pay-per-use items (qubit,taq)
- I will **wear appropriate PPE** in the lab including lab coat, long pants, close-toed shoes with shoe covers or lab shoes, gloves, goggles (when using acid under the fume hood)
- I will **order supplies I need by emailing** museomics-lab-orders@snm.ku.dk with the exact product number, amount and alias (or general lab use). See [github page](#) for vender info and template. I will also email when supplies are running low.
- I will **clean my workstation** before and after use
- I will sign up **to deep clean for one hour each month** that I use the lab
- I will empty plastic, cardboard and trash cans when full and hazardous waste at the end of each day
- I will sign in on the **sign in sheet** when I use the lab
- I will **label anything I open** or bring into the lab or freezers with PI name, date and initials
- I will **label all aliquots** with full name of chemicals, date and initials.
- I understand what chemicals I am using and know about their dangers. I know how to use <https://www.kemibrug.dk/> to look up chemicals.
- I understand the **difference between LAF hoods** (protecting samples) and **fume hoods** (protecting people) and will only use acids or potentially harmful chemicals under a fume hood
- I have **completed** [safety trainings](#) on introduction, chemicals and accidents and I am aware of the [safety manual](#)
- I will use a **publicly available lab notebook** that stays in the lab to record experiments, changes to protocols, calculations and any observations including errors or mistakes.
